**To:** [Abortion Bill](#)  
**Subject:** Please oppose the Abortion Bill  
**Date:** Wednesday, 28 September 2016 4:26:14 PM

---

I am emailing you to ask that you oppose the current abortion bill being considered by parliament.

It seems a case of 'the world has gone mad' when

- There are virtually no babies available for adoption in Australia.
- This low adoption figure must surely correlate strongly with the number of babies killed in abortions.
- No babies to adopt, Yet Abortion is not considered a children's rights issue????
- On the one hand we spend millions to save the lives of premature babies, and on fertility treatments for people wanting to have babies, and on the other hand, there are no babies to adopt by people desperately wanting babies, because we make it so easy for thousands of Australian children to be killed in abortions.
- We also spend millions on fostercare (caring for children in need: that's good!!!!!!!!!!!!1), yet we sacrifice myriad other Australian children on the altar of convenience: abortion (not just denying care to children in life-threatening need, but also being active in expediting their deaths: that's so very very sad !!!!!!!!!!!!! and bad!!!!!!!!!!!!!!).

I've worked all my life with children, and they are so very very precious. Babies, born and unborn, are lives bursting with potential.

Please do oppose this bill, and late-term abortions. Two of my children were born prematurely. They're now wonderful adults. They were children at 24 weeks and 27 weeks when it looked like they'd be born, and they were definitely children at 33 weeks and 36 weeks when they were born. My children were children from the moment they were conceived. So is every other child.

Please also think re future bills, laws and actions that reduce the 'default-option' nature of choosing to abort, with abortion virtually a 'default' option for unwanted pregnancies, when in reality there are so many other life-enhancing options which can be considered and chosen.

Please take actions that increase opportunities for life of Australia's myriad potentially-aborted children who might thrive if adopted from birth or infancy into loving families.

Please promote unborn's children's rights to life.

Dr Susan Galletly
