Subject: Pyne Abortion Bill
Date: Wednesday, 28 September 2016 5:21:24 PM

to the Health Committee

It is with great concern that I note that MP Rob Pyne has introduced 2 bills to weaken Queensland's Abortion laws and allow late term abortions without restrictions. and inhibit the rights of doctors and medical staff to speak freely about the impact of abortion.

It is ironic that in a society which protects human rights and punishes anyone who through assault takes life, that we disregard the life of unborn babies who the mother does not want. If an unborn baby is considered viable and worth saving at 25 weeks it is illogical to take the life of another unborn baby through abortion.

Research clearly shows that many women suffer long-term grief post-abortion and yet so often these women are encouraged to obtain abortion services. Rob Pyne's bills will further disregard the rights of women to appropriate counsel at a vulnerable point on life and will thus cause undue suffering in the long term.

Please reject these bills that damage our society through promoting unnecessary abortions.

yours sincerely,
Mr Ashley Withers
