Dear Sir/Madam,

I am desperately concerned that Pyne has proposed not one but two atrocious bills to legalise the murder of unborn children up to their due date!! This is absurd and in this day and age appalling! We have enough evidence confirming that abortions end the lives of unborn children.. it is murder and should not be sanctioned or funded by our government. We should be preserving the lives of our future citizens, not allowing these horrid unnecessary deaths to continue. It is a barbarous bill that Rob Pyne is putting forth. I know that the selling of baby body parts has become a lucrative venture for some sick twisted minds, but decriminalising the murder of children conceived regardless of the stage of development, the care of the mother and the welfare of the innocent child should never be considered as reasonable! Please I urge you to stop this bill! Stop both bills from going forward. Please don't give room for our future generations to be thrown away!

Thank you for your time,

Lia Fisher
