Hi I'm emailing in strong opposition to the proposed abortion bills. I was born with Hydrocephalus- A serious brain disease that can cause brain damage and paralysis I'm pretty much fine now, good qualifications own my own small business thanks to God a lot of prayer from a lot of wonderful christian people. If my mother had followed the doctors advice who said i would be mentally retarded and paralysed who said to LET ME DIE and abort me I'D be DEAD so i think anyone who isn't given the right to live has been murdered and anyone who supports this bill seriously needs to consider the fact that they are an accessory to murder
