To the Health Committee for Abortion

Dear Members, Humans, People who live still today

I Valda de Vries ask that the Committee reject this Abortion Bill.

It is a heinous act.

A foetus, an unborn child is as we were once were. UNBORN and had no say.

I am glad my mother did not believe in this horrible beyond belief gruesome act upon life.

ME the ninth child of fourteen. What does my younger sister number fourteen think?

She is glad to be alive. and likewise,

I also am alive and try to contribute to my society who live around me in many different ways and hope to be an asset to my community.

In fact I am glad this younger sister number fourteen, is also alive and did not have her life snuffed out as I love her.

You also once were born. Do you ask yourself this question.

Why did my mother let me live??????????????

Reason, she did not believe in abortion.

You are alive.

Please reject this Abortion Bill.

Sincerely

Valda de Vries
