Subject: Rejection and Opposition of both Abortion Bills
Date: Thursday, 29 September 2016 10:18:26 AM
Importance: High

Hello,

I would like to place on record as a concerned member of the human race that I oppose and reject the abortion law changes proposed.

Both the original 'Pyne' submission and the amended abortion bill being considered now.

I am a woman, a wife, a mother, a registered nurse, a business woman and a human being.

I work both in Qld Health and in Private business.

There is NO safe time to abort baby.

The baby ALWAYS dies!!

There is no safe time for the mother to abort a baby.

Neither physically, mentally, emotionally or psychologically.

The mother is left with deep psychological scars that remain with her for her entire lifetime.

'The day the baby should have been born, Mother's Day, whenever she sees a newborn and wonders whether she would have had a boy or a girl?'

I have delivered live and dead babies, and held mothers who's babies died in utero or in birth.

I have cradled babies who have died.

I have watched women grieve when they miscarried.

The right to choose, starts with choosing to have responsible sex.

Abortion is NOT a birth control method.

It is killing our most vulnerable and unprotected members of Australian society.

Yours,

Candy Sadler
