To whom it may concern

As an Australian I believe we are a compassionate and humane country - so how can we even consider changing our abortion laws to allow full term abortions? I appeal to you to stop this proposed bill. We need freedom of speech so the horrors of the procedures and the after effects, psychological damage and trauma for the mothers is made plain to everyone considering aborting the life of their baby. We had to have mandatory counselling when we wanted my husband to have a vasectomy to ensure we could responsibly not reproduce more than we could manage; why not counselling to fully educate before aborting too?

Yours sincerely  
Audrey Reynders
