Dear Committee, I ask that you please reject the latest Bill by Mr Pyne as it goes against all the rights of the child/baby and it clearly not what the people want. How can an abortion be performed on a full term pregnancy yet someone who is kills a pregnant mother in perhaps a drunk driving incident is charged with the death of an unborn child? How can Mr Pyne DEFINE on his own WHEN an unborn child is considered a living human being? I am so saddened to even think this could be allowed without asking mother's and father's around this country what they believe.
