Good morning.

I am writing to ask you to reject the latest abortion bill that has been presented to you by Rob Pyne.

I ask you to please honour your pre election pledge not to change current abortion laws.

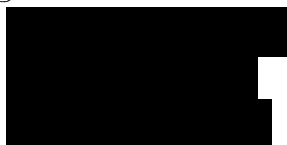

I believe Mr Pyne's bill shows little respect for the lives of the unborn and for the health of women.

Consider this! We spend millions saving the lives of premature babies but then abort other little lives that have the same right to life as pre term bubs.

I also am concerned, that by placing a restriction zone around areas to prevent people peacefully espousing their views is a direct attack on free speech in this country.

Please listen and consider my concerns and do not pass this abortion bill.
