**Subject:** Re. Abortion Bill Proposal  
**Date:** Thursday, 29 September 2016 12:11:22 PM

---

To whom it may concern,

As a female citizen within Queensland, I am emailing you to say that I do not support the abortion bill being proposed that will allow abortions to full term. Abortion is already inhumane enough; it is the ultimate violation of a person's right to live. Murdering an unborn fetus in the womb (where it should most be protected and safe) is utterly abominable, even if it is within the early stages of life. Things that are dead do not grow. Foetus's are humans in their earliest development period, not mere 'tissue' to be thrown away at will. Why should we advocate animal rights and yet support the merciless demolition of our own kind?

I would beg you in quite an impassioned manner, not to pass this bill. It is abhorrent and beyond cruel.

Yours truly,  
Eden-Jane.
