Dear Members of Parliament,

Please do not support **Pyne's 2nd Abortion Bill** in any way.

It's high time we started calling this act of so called "**Abortion**" by its real name which is, "**1st Degree Murder**", and that of the very worst kind. "**The deliberate, premeditated killing of a completely helpless and defenceless human being**".

The only reasons it should be ever allowed to carried out by any medical Doctor are:-

1. "**If the mother's life is endangered by continuing the pregnancy**",
2. "**If it has been discovered that the unborn child has a medical condition the would prevent it from ever having any form of a normal life**",
3. "**Or perhaps if the child was conceived by an act of rape**."

All doctors who perform this act for any other reason should be immediately charged with **Murder**,

Any woman performing a so called Abortion on herself should also be charged with **Murder**.

Please kill this Bill off completely, and don't allow it to be presented again, it offers no protection for a helpless human beings.

Yours faithfully,

Ken Pitcher,
