Directed to the members of the Queensland Parliament.

It seems to me beyond belief how a bill that is so profoundly anti - woman can even be considered. Abortion at any stage kills twice. It kills the body of a baby, of which half are female and somehow silences and kills the conscience of the mother. Aren't we woman meant to nurture, rather than become deniers of life?

Honestly one has to wonder whether the philosophers of Government espouse only those members of society who are tolerant of ineffable fallacies. What sort of society do you hope to leave behind for the coming generation?

Please wake up and chose life over death!

Sincerely
Agnes Gockel
