I will never forget the child I was carrying, the pregnancy was terminated naturally at 5 months. I didn't realise the significance of losing that little baby until years later.

I understand that some women would want that choice. However, there are so many women without children that would be glad to have these babies and these children would be a great blessing to them. And, as a mother giving up her child, she would have some peace knowing that she did not kill her child but gave it an opportunity to live. It would alleviate in later years, the guilt, of a mother who would naturally ponder from time to time, about the termination of her baby. And as you can tell by my personal experience, I still ponder on the thought of losing a child even though my pregnancy was not a termination by choice.

I implore you not to pass this bill.

Psalm 139:13 For you created my inmost being; you knit me together in my mother's womb. 14 I praise you because I am fearfully and wonderfully made; your works are wonderful, I know that full well. 15 My frame was not hidden from you when I was made in the secret place, when I was woven together in the depths of the earth. 16 Your eyes saw my unformed body; all the days ordained for me were written in your book before one of them came to be.

Yours sincerely
