To whom it may concern,

Every person I know, that I talk to and share political opinions, all agree on this one issue - abortion is wrong, repugnant and a reproach to any community. We differ on many topics, but this one topic of abortion in any sense of the word is not to be on the agenda of any civilised society.

Let Queensland be different and strong. Let's set an example to the rest of Australians and to the world for that matter, and stand strongly on our moral integrity. Let's demonstrate to our generations to come that we value life in all its forms. Life is precious, a gift, a miracle from conception to the grave.

Aside from the little Aussies who will not have a chance to live life as we do, we will set a dangerous precedent for future generations. Also, the psychological damage to the mothers who make this decision will be far reaching.

I implore you to vote NO to this despicable Bill to change Queensland's Abortion Law as it stands. It has served us well in the past and nothing has changed so dramatically in our society that it would need to change now.

Thank you.
