**Subject:** Rob Pyne"s Abortion bill Rev 2  
**Date:** Thursday, 29 September 2016 4:16:16 PM

---

Hello

I was a signatory to the petition against the first bill and am now forced to repeat the process because somebody didn't get the message the first time.

This bill is bad on so many levels.

It assumes people have the right to commit murder simply because the life has not left the relative safety of the womb - even weeks before birth.

Surely the committee must recognise that late term abortions are killing living human beings whose only distinction seems to be they haven't had the opportunity to breath oxygen with their lungs.

If there must be abortions then they should be performed safely within the existing guidelines. There is no valid reason that could justify the proposed changes.

Best Regards  
Mike Duffy.
