Dear Health Committee,

My name is Natalie McClatchey, and I am a mother of 3. I am also a science teacher, and have studied Ethics as part of a Masters degree. From my tertiary studies of human biology, as well as the various arguments for and against abortion, it is my deep-seated belief that abortion is the expedient destruction of human life – life that is not currently recognised properly by law in Australia.

I would like to express my opposition to the 2nd Pyne Abortion Bill, and would ask for your support in rejecting it.

Kind regards

Natalie McClatchey
