I wish to add my objection to this bill. I am deeply concerned at the lack of concern for human life that this represents. I don't believe it is necessary to abort viable babies just because someone changes their mind about having a baby. There is always adoption as an alternative.

Abortion has also been proved to have an extremely negative effect on the emotional health of the woman, as well as her physical health. So I believe that this Bill is dangerous to women's health also.

A baby in the womb still has the same evidence of life that a baby outside of the womb has – heartbeat, brain activity and functioning organs – even up the very minute of birth. How can anyone with a conscience thing this is not killing a human being. Just sayin'...

This Bill is not necessary. It is just a vote grab and I don't believe that the moral and ethical standards of our amazing country Australia should be reduced to inhumane to satisfy Mr Pyne's objectives.

Thanks for listening.

Michelle Tirrell
