I wish object to the changes on the abortion bill. It allows for abortion until birth for viable babies and removes protection for Queensland women and babies.

The bill will turn doctors into murders when they take to life of a human about to be born.

What happens if the baby takes a breath? Does the doctor then have to kill it somehow?

Isn't that murder in the eyes of the law? There are just too many grey areas that are opening up doctors to litigation and worse.

My details are
