Health Committee

Re: Abortion Bill before Qld government.

I wish to make very clear my vote and request which is **STRONGLY AGAINST** the acceptance of the abortion bill.

I am a practitioner of medicine within this state and have been practicing for over 50 years.

I see numerous women who carry emotional scares and permanent regret for their actions taken for an abortion, many years earlier.

This regret and scaring NEVER fully subsides.

A quick fix for an 'unwanted' pregnancy is NEVER to terminate the life given the mother as a gift from God to care for, nurture, raise and support to adulthood.

What a shame on mothers who do take this stand which is mostly done under extreme stress and emotional turmoil.

As a state/nation/world we need to be **supportive of the child that is to be aborted**, not neglectful.

I married my wife who was to be aborted, she is the mother of two beautiful children and grandmother of one new born.

What a travesty had her very young school age parents at 15 and 16, taken the ill conceived advice and aborted my dear wife.

My wife is a very caring, loving and wonderful woman who has given so much to her world and beyond.

I am most disturbed that a minority group of 'thinking-of-my-problems-only' people who feel they can selfishly take the life of their 'unwanted' child.

This unborn is only unwanted by one person - the mother.

What about the hundreds of people who will know them after birth and love them and the lives they will impact??

Regardless of how these would be mothers manipulate their present conscience mind to think it's OK - It is NEVER OK to take anothers life!!!!

Calling the unwanted child whatever name they like, foetus, embryo, foetal tissue, aborticide, termination, induced miscarriage or whatever you like, is not right for the baby. Whats OK for the mother is death for the baby!

Regards and with great passion NO to abortion under ANY circumstances.

Graham
