---

What has happened to us in this day & age where rabbits, possums & piglets are held in greater regard than human babies?

I'd like to remind you of the recent case of Mr Noble who was given a suspended gaol sentence for using live baiting while training greyhounds & the subsequent public outcry when footage was shown on national television via the ABC's 4Corners program. Now I don't want to go into the rights or wrongs of using live animals in certain training regimes, but rather I'd like to point out the blatant hypocrisy of our modern society where unborn children are murdered on a daily basis in a state funded system where medical professionals are providing women with so-called rights to do what they like with their own bodies. Well I'm sure Mr Noble felt he had the right to do, with animals found on his own property, whatever he wished. The sad fact is that the only people prosecuted in the disgusting, cruel & callous abortion industry are those who dare to stand up & protest for the protection of the unborn child, & woe betide anybody who would dare to illegally gain footage of the insides of an abortion clinic & pass it on to 4Corners to show the public how inhumane & cruel the aborting of babies is!

In parliament recently it was stated that 27 babies were aborted alive in Queensland during the past year & left to die all in the name of the woman's right to do what she wants with her body.

Well, I, for one, demand that it's time you members of parliament start standing up for what is right & stop calling what is right 'wrong', & what is wrong 'right'!

You lawmakers are so intent spending our taxpayers money chasing the prosecution of a dog trainer for using rabbits, which are considered a pest here in Queensland, than you are protecting the rights of unborn children. It is a very sad fact that in Queensland today the most dangerous place to be is inside the mother's womb, & the sole blame for that lies with you, our elected representatives. You make the laws for this great state, start acting responsibly & using your position wisely. That's what we elect you to do.

In times past, so called uncivilised societies sacrificed their children in the hope of appeasing the animistic gods they worshipped. I would hope that there wouldn't be anyone living in Australia who would condone the ritual sacrifice of our children, but how many thousands of babies are 'sacrificed' every year on the altar of 'feminism' & 'women's rights'.

In one of my history classes the teacher began by stating the fact that:-  
'one thing you learn from history is that man doesn't learn from history'  
Societies that go down the slippery slope of moral decline- and that's exactly what it is- don't last very long on the world stage.

You would do well to heed that warning I think, don't you?

Ian Bakes, [REDACTED]
