Subject: proposed abortion bill
Date: Wednesday, 28 September 2016 6:50:40 PM

As a woman, a mother and nurse, I find the proposed abortion bill incompatible with women's health. It ignores the physical and life-long mental and emotional consequences associated with abortions. It demeans the life of children, attacking infancy at its very roots and destroys the mindset of natural mothering which is ingrained in every woman. Only the most thoughtless and irresponsible of politicians could concoct such a bill and expect such nonsense to be passed.
