Subject: Opposing new abortion bill.
Date: Friday, 30 September 2016 5:06:45 PM

To the members of the Health Committee,

as a resident of the great state of Queensland, I am writing to urge you to oppose and reject the abortion bill/s currently before state parliament. The proposed changes to current laws pertaining to abortion are heinous in the extreme. To wantonly kill someone who has absolutely no means of protecting themselves is deplorable enough but to change current laws to allow even more of this abominable slaughter is an affront to all thinking, feeling people and is an even greater affront to the God who created each one of us. He is grieved by our flagrant disregard for these precious little lives. Thank you for your consideration,

Yours sincerely,

Ray Woodrow

Blindness for some is a disability,

For others, it is seeing from a different perspective...

But there are none so blind as those who will not see.
