Subject: Submission re.....proposed abortion bill by Christopher Pine
Date: Friday, 30 September 2016 7:14:53 PM

I wish to register my absolute abhorrence to the proposed bill by the honorable member Christopher Pine.

In making this submission I do so on behalf of those who would never be allowed a voice. ..under such legislation. I believe in life from conception and consider the force able taking of a life from a mother's womb is murder and should be reflected in our legal system as such. This may appear an extreme position yet an extreme position is exactly what the proposed legislation is a typing to force on Queenslander.

It is beyond my ability to comprehend how anyone can destroy life and particularly that of the most vulnerable who deserve our protection.

Please be aware that many arguments ranging from the damage suffered by women who have endured abortions to the blatant extreme destruction of the basic fabric of our values ...through the undermining of absolutes...is leaving us vulnerable as a nation to become like all other nations who have moved in this direction.turn on the tv look around....common denominator. ..abortion legislation .

To register my submission i wish to verify my details as follows

Leonie Rickard
[REDACTED]

Yours sincerely
Leonie Rickard
