Dear Health Committee

On behalf of my wife and I, please oppose any Bill in Queensland Parliament allowing abortion on demand at any stage of gestation, as proposed by Mr. Pyne. As a deeply Christian family, it saddens and horrifies us that so many mothers (and fathers) would fail to see the treasured gift of human life entrusted to them, his or her unique DNA and heart already beating, but rather an unwanted burden and inconvenience to be disposed of as their inalienable right.

Thank you.
