I object to this bill on the basis that

1. It does not give adequate protection for the life of the unborn child;
2. It allows the prospective mother and others to perform an abortion instead of a medical practitioner only under stringent and specifically limited conditions;
3. It limits the freedom of speech by other persons and/or concerned groups against the procedure (killing of the unborn child) as proposed in the bill.

I am a concerned Australian citizen.

Mrs. Joan Dorothea Moores
