To the Health Committee, Queensland Parliament

I wish to express in the strongest possible terms my opposition to the second Abortion Bill proposed by Mr Robert Pyne, the Independent Member for Cairns.

For any society to remain strong it must uphold high standards of justice, integrity and compassion for the most vulnerable of its members.

I sincerely trust that your Committee has made a rigorous checking of facts before making your decision on this matter. To desire to take the life of a child in its last trimester, even up to birth, is incomprehensible to me. In abortion, the *intent* is to kill a baby, and the outcome of every "successful abortion" is a *dead* baby. Many of these babies are born alive and because they were deemed to be aborted, they are then left to die - or even helped to die.

American abortionist, Dr Kermit Gosnell, used scissors to cut the spinal cords of late-term babies who were born alive.

I respectfully request that your Committee robustly and conscientiously consider the consequences for our society in your decision on this Abortion Bill.

Yours respectfully

Laurel Morris
