The Health Committee,

I refer to MP's Rob Pyne's 1st and now 2nd bill that he is/attempting to have placed before parliament in a future sitting. I wish to declare my opposition to those bill's in an attempt to change the current abortion laws.

Your attention to this matter should include to respect the rights and health of women and also that of the unborn child/children. To also respect the rights of the medical staff and the right to free speech. Reject this irresponsible bill which would allow 'backyard' operators and reject this anti-woman, anti-child which is hastily and ill-conceived abortion bill.

Sincerely,
David Chancellor.
