To my parliamentary leaders,

I cry out to you on behalf of our little ones who are waiting to be born. "Give us a chance to live."

We are Australians and so far still proud of our great beautiful nation. But seriously has our government viewed the procedures required to abort a baby? I'm just an Aussie grandma, but to know that a child at times needs its head removed to stop it from seeking to thrive after abortion cannot be condoned.

Fact is, if the bill is passed, then animals have more rights than an aborted baby, cause if you did the same to animals you would be prosecuted.

This bill is wicked. If parliament seriously seek to pass this bill, I challenge them, I dare them to watch medically documented abortions of various aged babies, then they will see the horror of what they are seeking to allow.

But who will read this? I'll get a computer response when I've appealed to my governments hearts. Give me hope.

Here's hoping
