I wish to say how distressing it is to see such incredible lunacy in a time when all serious moral issues are under attack. Does one realise what stage of human life is at, late term, incredibly, many do not realise that it is as we once were, when born. Please think what the State may miss, the world will miss, maybe a great leader ,brilliant life saver to so many, maybe a politician. Sincerely, John A Gates, [REDACTED]
