Dear committee

I wish to express my very deep concern about the new abortion bill proposed by Cairns MP Mr R Payne.

This bill goes against my world view that all human life is sacred. Australian media report the sad figures of still births, and as a nation we want research done so that in the future we can at the very least reduce the number of babies born dead, yet politicians are considering a bill that removes the safeguards for unborn babies. This is unacceptable. This bill undermines the moral fibre of our society. It is dangerous for unborn babies and women. I say a very strong No to this bill.

Regards

Mrs Vanessa Murch
