To: [Abortion Bill](#)
Subject: Stop legalisation of abortion for any reason till birth
Date: Saturday, 1 October 2016 4:11:26 PM

There is rarely a medical reason to perform an abortion after 24 weeks of pregnancy. To perform an abortion at this stage, when the child is viable is plainly a heinous crime against humanity, simply a clinical murder, and should be unacceptable in a modern world where a viable human baby should be protected and have a right to live.

People have been concerned about the recent loss of frozen embryo's in a power outage in Adelaide, and how much more should we be concerned about the brutal killing of an innocent unborn child who can feel pain!

I fail to see the difference between an unborn child and a child just bornits just a few weeks, and one is loved and cherished and the other tossed in the rubbish after a brutal painful death! Where is the logic! How can this be acceptable or civilised? It is an evil leaning towards the culture of selfish convenience gone mad!

Please don't allow this bill to pass in Queensland, most people are horrified if they learn what this bill actually legalises. We must resist this clinical barbarity in our society. I am a woman, a mother, and a family doctor and this bill horrifies me. I don't want to continue working with a society that is so degenerate, it legalises something that is just technically a day, or a week short of infanticide.

We will all pay for it, as the mental health of all involved is bound to cost us dearly in many ways. It is simpler and safer if we just don't allow legalisation of abortion for any reason till birth.

Dr Katrina Neal
