Subject: 2nd Pyne Abortion Bill
Date: Saturday, 1 October 2016 4:55:05 PM

Do not weaken Queensland's Abortion Laws. We expect that our Politicians will protect the Health of Qld. women, particularly their Mental Health and the safety of their unborn child. Pressure is put on Mothers to discard their unborn child when the Law is weak. Queensland Politicians should stand up for the weakest, our unborn Queenslanders. Who are we discarding? It may be a Person who can give much to our State. If the State gives so little respect for our unborn, is it any wonder that our youth are losing their way, seeking today's pleasures with little regard to strive to do their best to help Qld. be a safe, nurturing State for all of its citizens.

Give some deep thought to the Queensland you want for your children and grandchildren!

Concerned Qld Citizen
