---

Hi ,I would just like to voice my belief about abortion ,,, to me abortion is unacceptable because the baby is alive ,its receiving information and learning ,when a film is seen of the foetus really everybody is touched by the scan. another human to destroy such a baby is pretty cold, unless on medical grounds that's a different story . as a God fearing person I am pro life .God has a plan and a purposes for all of us no matter ho.

Sincerely Steve smith
