Dear Health, Communities, Disability Services and Domestic and Family Violence Prevention Committee

I do not believe this bill adequately looks after the interest and well being of a child. With current medical prowess a baby of that age would be able to have the opportunity of having a normal healthy life. It has not been determined at what age a baby is considered to be a person and also presents a double standard.

If a baby of 24 weeks had been born and someone took action to kill that baby, it would be seen that the person had murdered a baby.

So why is this new bill even considering that to abort a baby of 24 weeks or more is not murder? If for whatever reason the mother/father do not want to keep the baby, the baby can be given to those who do.

I believe the bill up for discussion is wrong and encourage you to defeat this bill.

Respectfully Yours
