HEALTH COMMITTEE - DISABILITY, DOMESTIC and
FAMILY VIOLENCE PREVENTION

Submission re : PYNE ABORTION BILL

Since the present laws on abortion are quite adequate, why is there any need to change ? Surely there can be no greater unfamily and violent action than to kill a helpless, innocent baby and drag it out of what should be the safest place in the world ? Who gives this government this right or why ?

The sanctity of human life is the foundation of this country as laid down by our Christian heritage.

If it is now good to kill the unborn because they are not wanted, what about unwanted live children such as the little girl apparently murdered by her foster father ? Was that OK or is murder of the born the same as the murder of the unborn ?

I was the youngest of four children born to poverty stricken parents who lost their farm in the great depression. Our father disappeared and my mother nearly starved to death as there was no welfare then and any available food was given to the other three children. In her old age she confessed that she was glad she didn't succeed in her efforts to get rid of me as I was the only one left to take care of her.

Prevention is better than cure so surely it would be better to make men responsible for fathering children instead of leaving women and children to suffer the consequences of their selfish actions.

Is the governments purpose to promote LIFE or DEATH?

Will history judge this generation as depraved and morally bankrupt as they are becoming ?

Everyone on Earth is here for a purpose - for good or evil.

Yours faithfully

Deanne Stack
