

To: The Honourable The Speaker and Members of the Legislative Assembly of Queensland

This letter is to express my total opposition to the abortion Bill Amendment 2016 supported by the right to life of every person and the following points:

1. Life begins at conception.
2. It is not only woman's body (Woman are carrying other(s) human being(s) with rights)
3. Abortion is a way of discrimination
4. Extracted and killed babies are used in research and commercial ways.
5. Women's life are in big dangerous after abortion because they will develop cancer and other illnesses.
6. Children and whatever stage of pregnancy, suffer immense pain during an abortion.
7. No one has the right to kill defenceless babies in their mother's wombs.

Please, consider the above points, which will benefit future Australian Society.

Kind Regards

Javier Santiago Panchi
