Once concievement has commenced it is a living human being despite giving it names so that abortion for convenience can be justified. Abortion for convenience is MURDER, there is no other way to say it. Allowing abortion till almost birth is definitely MURDER because babies born prematurely are classed as living human beings, a child near birth is the same as a child born prematurely, it is a well formed living baby. Therefor aborting at that stage is the same as killing a premature baby, which is MURDER whether you like it or not. Be people of courage and conviction, please DO NOT PASS THIS BILL. Yours Sincerely Peter Middendorp of [REDACTED]
