To whom it may concern,

Please consider these thoughts I've penned, as it has not come easy for me to write them to you? I can't let this situation go by without comment. I've been troubled by these bills, signed the petitions against each bill. What I don't understand is how this can be thought to be beneficial.

If a mother loses a baby mid-term all who love that mother, grieve for her. If a baby is born prematurely all who love that mother & her new child hope and often pray for the child's safety.

I've never thought abortion was ok. There is the situation when both mother's & baby's life are in danger, this leads to a difficult decision. To abort a child close to full term however, is abhorrent.

Obviously for people to consider this as an option they must be in a bad place themselves, but should we not be supporting these at risk mothers, helping them through to full term, offering the adoption option and teaching them about contraception, rather than even considering killing their unborn babies?

Thank you for your time.

Sincerely,
Chris Tree.
