I am writing to oppose Senator Pine's proposed new Bill in relation to Abortion.

Abortion is a crime against humanity. It violates the rights of children as per the UN's "Rights of the Child" agreement and it contravenes our laws against murder.

"Women's rights" (to have her offspring terminated, her body violated and her heart destroyed) still need to be 'respected' WITHIN THE BOUNDS OF THE LAW.

Abortion, by any other name, is murder. We all know this. Perhaps 40 or 50 years ago we could all pretend that an unborn baby is "just a cluster of cells" but no-one could deny the gross misrepresentation of truth that this excuse represents any more.

If that were true, then essentially we are all – every human – "just a cluster of cells".

The question we must all ask is whether that "cluster of cells" is alive or dead?

Neuroscience has proven unequivocally that the unborn child is ALIVE from the moment of conception. If it were not alive, there would be no need to kill it, would there?

And it is FULLY HUMAN. It is not a dog or cat or a tree. It is a LIVING HUMAN BEING. A Person. You started that way, and so did I. It's the beginning of the evolution of Life, but it is no less FULLY HUMAN & FULLY ALIVE.

It may not have all of its parts fully developed at the moment of conception, but if not having all our parts makes us any less "human" or worthy of our life being protected by our laws, then many of us would be in trouble, especially the elderly and disabled!

The deliberate termination of a FULLY HUMAN, FULLY ALIVE PERSON, by any other name, is MURDER. Murder is against the law of our land, and it is a crime against children.

This may be an inconvenient truth to a small minority – and most especially to Abortionists who make a fortune from running these human abattoirs - but for most Australians (and as reflected in other laws such as the manslaughter of an unborn baby in vehicle accidents etc.), the life of an unborn child is something to be valued and treasured and worthy of protection.

This is why the announcement of a pregnancy is normally culturally celebrated in our society. Because WE ALL KNOW THIS MEANS A NEW LIFE HAS BEEN CONCEIVED AND A WHOLE NEW PERSON HAS BEGUN.

Please vote against the proposed Abortion Bill.

Thank you.

Yours sincerely,
Delphine Hattingh
