---

To whom it may concern,

Please do not approve the abortion bill. This bill shows strong disregard for human life but also rejects the countries views and again stifles any freedom of speech by creating "exclusion zones."

The fact that you have disregarded the staggering and overwhelming statistics that 82% of Australians do not support late term abortion and that 70% of Australians do not support mid term abortions is very concerning for Australian politics.

Numerous studies show that a baby in the womb feels pain should cause people cause and alarm against this bill. It is a basic human right for which we have gone to war to protect others from suffering at the hands of others. Who is more vulnerable than a child.

Also your amendments still do not address real concerns. Even two doctors signing off can be easily circumvented because they do not have to be independent of each other or even see the patients.

Also your bill still does not recognise the mental anguish women who are pressured into having abortions or are mentally affected by their decisions. Mental health affects from women having abortions is a rapidly growing concern and your bill does not address how to reduce this or how to promote other healthier and beneficial options like adoption.

Please reconsider and reject this bill.

Thanking you  
Faith Hull
