Dear Sir /Madame

I would like to make a submission into the Second Pyne Bill.

I am not in favour of the amendments nor am I in favour of the original Bill.

The bill does not protect Babies, Mothers or even Doctors, although a large part of the amendment is protecting abortion clinics and implementing an exclusion zone. So if you protest about the destruction of a life you will face a fine or a jail term and if you are a doctor or a nurse who actually takes part in the procedure you are not a criminal.

It is not difficult to see that the abortion industry wants their industry protected and they go all out to protect their industry by protesting to Governments as if it were a legitimate industry such as mining or farming.

They will quote millions of dollars of revenue and jobs and so on. Their figures state that 42 million abortions happen worldwide every year. Multiply that by \$500

And WOW what an industry. This is sold to women as a choice and they are hoodwinked into believing it is the only option. Good for the industry, not good for the mother, child or Australia.

Thank you for this opportunity

Regards

**Robert Grierson**
