---

As with the previous Abortion Law Reform Amendment Bill presented. I am very much against this second Bill being given any consideration. How can a government pass such a Bill that allows for the abortion of viable babies up until full term of their birth. It removes protection for the Queensland women and their babies.

The Queensland Government has the responsibility to all Queensland people including these little unborn babies. What right has the government to take their lives. Money should be given for more counselling and help for women who are struggling in their pregnancy to bring about a good outcome for both mother and baby.

Thank you  
Marilyn Sedgwick
