Dear Sir / Madam,

Abortion is the intentional killing of an innocent human being. The truth of this does not change relative to one's capacity to understand, or to stomach it. The truth of this does not change no matter what mitigating circumstances are posed to excuse the act. If one does not recognize the fundamental truth of what abortion is, then one is a moral idiot. One may be politically successful while remaining morally irrational

As long as abortion is legal, it is certain that other classes of human beings will be legislated for killing. No regime that denies the right to life has legitimacy. This is why all abortion legislation tends to the Draconian, as far as parental consent and public protest are concerned - not to mention the inevitable slide into infanticide which this bill lauds.

There is a mountain of medical and sociological evidence that shows the high level of post-abortion trauma, both physical and psychological. The rise in women's diseases and abuse of women have abortion at the centre. The truth does not change because politicians and the media suppress it.

The Health Committee is obligated to reject this barbarous bill. If it does not it has no integrity. It will have no legitimacy.

Thomas Sudull
