Dear Committee Members,

How is it that in our so-called civilised, progressive society we could even be considering a bill in our Queensland Parliament that will make it easier to murder our unborn children? My social conscience constrains me to speak up on behalf of these innocent ones so that as a society we don't have even more blood on our hands. Surely, and hopefully, one day we will look back in disbelief at the barbaric practice of abortion as that of a bygone, unenlightened era.

Please choose life for the innocent unborn and save them from the cruel, torturous, murderous treatment at the hands of doctors who are meant to dedicate their lives to saving life, not destroying it. Also, one must consider the ongoing mental and psychological harm to the women who will spend the rest of their lives knowing that they have killed their child.

For the sake of human decency and a civilised, progressive society, please oppose this new bill that will only serve to further remove safeguards for both the unborn child and his/her mother.

Yours Sincerely,

Francis Shanahan
