To The Inquiry Secretary  
Health, Communities, Disability Services and Domestic and Family Violence  
Prevention Committee  
Parliament House  
George Street  
Brisbane Qld 4000

This is to request that you please reject Rob Pyne's abortion bill amendments for the sake of each tiny, defenseless, human who has their heart beating heart inside another humans body. Mothers with babies already growing, deserve counselling and investigation of their other options, no matter the circumstances surrounding the pregnancy.

Many women feel overwhelmed at times throughout pregnancy due to relationships, severe illness, finance, shock, hormones and many other factors. Enabling the removal of the life is not the best option for a woman's long term emotional and psychological health.

Even a devastating circumstance such as rape, can result in a happy, healing mothering opportunity for the victim or an adoptive parent. Making the baby 'go away' is not always the kindest option for the woman. I have a friend who suffered this dreadful, violating experience; kept her baby and has a precious, adult daughter now. She believes all options would have presented suffering, and she chose the most restorative.

The option of the 'morning after' pill already exists.

Thank you for your consideration of the defenseless in this matter.  
Kindly,  
Renee S Brunne
