To whom it may concern,

I write with deepest concern about the changes to the abortion laws. I find it deeply disturbing that human life can hold such little value and that our countries' leadership would endorse the murder of our children. As a mother of four, I celebrated the conception of each of my children and rejoiced as I saw their little hearts beat at just 6 weeks of pregnancy. We see death as the absence of a heartbeat and I certainly saw life when I celebrated that little heartbeat. As such I find it abhorrent that you could murder a child even more developed. Your term abortion is just a censored version of the word murder. Would you really be happy to put a bill forward that gave permission to murder? How is this just or right? Why is it that out most vulnerable are not protected? There are couples crying out for children. I ask that you reconsider and stop the changes to this bill and protect the rights of your future generation.

Yours sincerely,
