I am Utterly Opposed to Open Season on Qld Unborn

I solemnly stand against Mr Rob Pyne's "**ABORTION LAW REFORM (WOMEN'S RIGHT TO CHOOSE) AMENDMENT BILL 2016**", because it allows for abortion until birth for viable babies and removes protection for Queensland women and babies.

I believe that Mr Rob Pyne's 2 Abortion Bills are a very subtle way to legalise the murder of innocent children of women who may be wrongly informed or acting on their emotions without understanding the truth of the issues of the unborn created life in their wombs and without having proper moral guidance.

This Bill along with the first Bill aims to cheapen the lives of the unborn children, as the lie of evolution makes out our babies to be just worthless fish-like beings and not a precious human life from the moment of conception with all its life existence as a human –being with the likeness of father and mother.

I also believe and have had experience in real life situations, where in many circumstances couples; young women and young men were being guided by peer pressure. In ignorance, they were acting on their emotions, being fueled by dis-information and misinformation, concerning the life of the unborn child, their own lives and the moral obligation that there exists of human beings to protect all life especially the lives of our Queensland unborn children.

Our fore-fathers, while not being perfect, feared God and were guided to make the existing Queensland Laws to protect these moral issues and the lives of the unborn children of Queensland and their mothers

and fathers. Today there is sadly an ever-increasing decay of our community values and morals and an attempt to further erode the true family values and destroy the fabric of our society further by de-criminalising murder (abortion). The promotion of health issues is part of the masquerade to take away the truth that the life of the unborn is not at all precious and can be done away with by so-called do-gooders like Mr Pyne and his supporter.

All Queenslanders are accountable to our Creator God, who has given the ability of male and female to pro-create, and to bring forth children for His God's pleasure. We too as fellow citizens of Queensland are to take pleasure with God in His Creation, His offspring, not to destroy them at our whim!

I and my family want no part of this terrible tragedy that is striking of State of Queensland in the name of promoting so-called Health Benefits and we strongly urge that the 'Disability Services and Domestic and Family Violence Prevention Committee' and the Queensland Parliament, not to allow this life destroying Bill to continue in the Queensland Parliament at the detriment of our unborn babies, but to reject it utterly.

Since when has murder become healthy?

God have mercy on Queenslanders born and un-born.

I remain yours sincerely,

Lesley McNally
