Health Committee.

I trust in you, The Honorable Health Committee of the State of Queensland **to stop this abortion bill**, desperation of members of the community to legalize killing, the planned future of the next generation, living heart human life- killing in the mother's womb,- the infant killed upon delivery - forced to leave the baby to die in a cold unforgiving environment. ***The planned Killing of living life in this bill is desiring to progress forward wanting to dehumanize the right to life.*** Abortions are not to be funded by the tax payer. Abortions effect **mental health**, for the remainder of the perpetrators lives, be they will or un willing, that is a serious social consequence, that effects the community, then the tax payer.

Trusting in your good judgments.

Sincerely
Katherine Steele.
