Subject: RE: Public Health (Infection Control) Amendment Bill 2017 - Call for Submissions - GCHHS response

Good afternoon,

Thank you for the opportunity to provide a submission on the Public Health (Infection Control) Amendment Bill 2017.

The Infectious Diseases and Immunology Department, Gold Coast Hospital and Health Service (GCHHS), has confirmed that the GCHHS has no specific comments to make and supports the proposed amendments, noting that our practises are in keeping with the amendments.

This response has been approved by Ms Karlyn Chettleburgh, Acting Chief Operations Officer, GCHHS.

Kind regards,

Aleisha Smillie
