

Health and Ambulance Services Committee

Erratum to Report No. 5, 55th Parliament - Public Health (Childcare Vaccination) and Other Legislation Amendment Bill 2015

The Health and Ambulance Services Committee provides the following clarification to Report No.5, 55th Parliament - Public Health (Childcare Vaccination) and Other Legislation Amendment Bill 2015 (the Report).

Pages 33 and 34 of the Report set out a number of unintended consequences that submitters considered could occur as a result of the Bill.

On page 33, the Report incorrectly attributed the unintended consequence of *“encouraging the vaccination of children who are unwell”* to Associate Professor Julie Leask of Sydney University.

This issue was raised with the Committee but it was not raised by Associate Professor Leask.
